CONSTRUYENDO JUNTOS

BUILDING TOGETHER

LA CONSTRUCCIÓN EVOLUCIONA Y NOSOTROS CON ELLA

YCR Complementos "somos" una empresa joven y dinámica dedicada a la comercialización de productos para el profesional de la construcción ofreciendo una gama amplia de perfiles y sistemas de nivelación.

La construcción evoluciona y es por ello por lo que apostamos por las nuevas tendencias en el sector de la cerámica proporcionando soluciones innovadoras en decoración, nivelación y protección que ofrecen máxima eficacia y garantías probadas. Apostamos por la profesionalización de cada una de las familias de producto que aparecen en nuestro catálogo dando a nuestro cliente la gama más extensa en medidas y acabados.

Nuestro eslogan es "Soluciones para Decorar y Construir", sin embargo, nuestra máxima no sólo es esa, es también prestar un servicio de excelente calidad a nuestros clientes. Creemos que en los pequeños detalles reside el éxito y es por ello por lo que disponemos de stock de todos los artículos de nuestro catálogo, y así poder ofrecer una respuesta rápida y eficiente a las necesidades de nuestros clientes.

Nuestro equipo humano es nuestro principal activo intangible y es, gracias a ellos, por lo que marcamos la diferencia en el sector. Suscribimos el proverbio africano que dice: "Si quieres ir rápido, ve solo; si quieres llegar lejos, ve acompañado".

Llevamos más de 10 años de trayectoria profesional y personal en todo el territorio nacional y extranjero. Seguimos creciendo, seguimos evolucionando.

CONSTRUCTION EVOLVES AND WE EVOLVE WITH IT

YCR Complementos "we are" a young and dynamic company dedicated to the commercialization of products for the construction professional, offering a wide range of profiles and leveling systems.

Construction evolves and that is why we are committed to new trends in the ceramic sector, providing innovative solutions in decoration, leveling and protection that offer maximum efficiency and demonstrated guarantees.

We are committed to the professionalization of each of the product families that appear in our catalog, giving our clients the most extensive range of sizes and finishes.

Our slogan is "Solutions for Decorating and Building;" however, our maxim is not only that, but also to provide an excellent quality service to our clients.

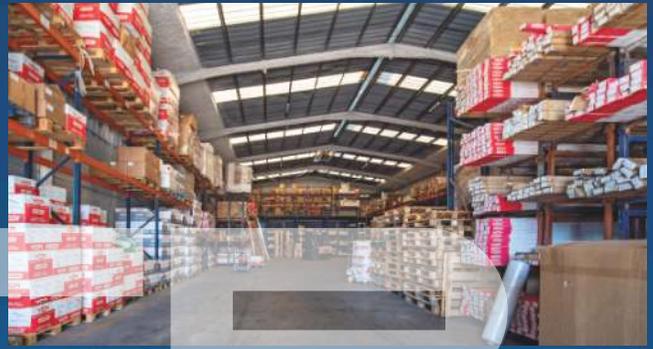

We believe that success lies in the small details and that is why we have stock of all the items in our catalogue, and thus be able to offer a quick and efficient response to the needs of our customers.

Our human team is our main intangible asset, and it is thanks to them that we make a difference in the sector. We subscribe to the African proverb that says: "If you want to go fast, go alone; If you want to go far, go together."

We have more than 10 years of professional and personal experience throughout the national and foreign territory. We continue to grow; we continue to evolve.

En YCR trabajamos para ofrecer productos que cumplen con los más altos estándares de calidad, seguridad y sostenibilidad.

A continuación, te presentamos los iconos y certificaciones que encontrarás a lo largo de este catálogo. Cada uno identifica características técnicas, materiales, o avales obtenidos a través de ensayos en instituciones reconocidas garantizando el cumplimiento de distintas normas UNE, UNE-EN, ISO, ...

At YCR, we strive to offer products that meet the highest standards of quality, safety and sustainability. Below are the icons and certifications you will find throughout this catalogue. Each one identifies technical characteristics, materials or endorsements obtained through testing at recognised institutions, guaranteeing compliance with various UNE, UNE-EN, ISO and other standards.

Instituciones y Certificaciones Técnicas y Ensayos

Institutions and Technical Certifications and Testing

Instituto Tecnológico Metalmecánico, Mueble, Madera, Embalaje y Afines. Ensayos de resistencia y durabilidad.
Institute of Metalworking, Furniture, Wood, Packaging and Related Industries. Strength and durability testing.

Norma G22.
Standard G22.

Centro de Investigación y Desarrollo Tecnológico. Garantiza la innovación y el cumplimiento de estándares de calidad.
Centre for Research and Technological Development. Ensures innovation and compliance with quality standards.

Evaluación de la acción de microorganismos en plásticos.
Evaluation of the action of microorganisms on plastics.

Código Técnico de la Edificación.
Technical Building Code.

Fabricado dentro de la Unión Europea.
Manufactured within the European Union.

Producto conforme a las directivas europeas de seguridad y salud.
Product complies with European health and safety directives.

Apto para tránsito peatonal. Producto resistente al paso frecuente.
Suitable for pedestrian traffic. Product resistant to frequent use.

Cumple los requisitos de la norma ISO 9001.
Complies with the requirements of ISO 9001.

Antibacteriano, Antihongos.
Antibacterial, Antifungal.

Cumple los requisitos de la norma ISO 14001.
Complies with the requirements of ISO 14001.

Modelo registrado patentado. Diseño protegido bajo registro oficial.
Registered patented model. Design protected under official registration.

Seguridad de utilización y accesibilidad.
Safety of use and accessibility.

Productos que han sido sometidos a pruebas específicas que garantizan su rendimiento.
Products that have undergone specific testing to guarantee their performance.

Asociación Española de Profesionales de la Piscina (ASEPPI). Certificación en productos para el entorno acuático.
Spanish Association of Swimming Pool Professionals (ASEPPI). Certification in products for aquatic environments.

Estos iconos identifican materiales, propiedades y recomendaciones de uso.

These icons identify materials, properties, and recommendations for use.

Acero inoxidable AISI 304. Alta resistencia a la corrosión.
AISI 304 stainless steel. High corrosion resistance.

Fibra de vidrio. Alta resistencia mecánica y estabilidad dimensional.
Fibreglass. High mechanical strength and dimensional stability.

Nuevo acabado. Mejora en la composición o el rendimiento.
New finish. Improvement in composition or performance.

Aluminio Anodizado. Protección superficial duradera y estética.
Anodised aluminium. Durable and attractive surface protection.

Polietileno. Protección frente a la degradación solar.
Polyethylene. Protection against solar degradation.

Uso recomendado exclusivamente en espacios interiores.
Recommended for indoor use only.

Galvanizado. Revestimiento anticorrosivo mediante zinc.
Galvanised. Anti-corrosive coating using zinc.

Polipropileno. Ligereza y buena resistencia química.
Polypropylene. Lightweight and good chemical resistance.

Novedad.
New.

Policloruro de vinilo. Material versátil y económico, ideal para interiores.
Polyvinyl chloride. A versatile and economical material, ideal for interiors.

Latón. Material decorativo con excelente durabilidad.
Brass. Decorative material with excellent durability.

Auto adhesivo. Fácil instalación sin necesidad de herramientas.
Self-adhesive. Easy installation without the need for tools.

Poliestireno Extruido. Ligero y aislante térmico.
Extruded polystyrene. Lightweight and thermally insulating.

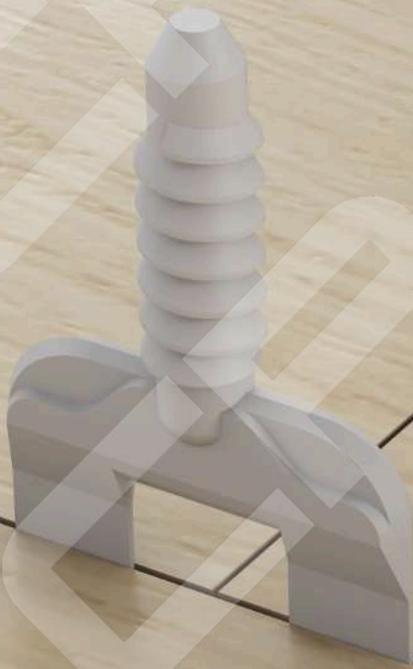

Producto para tecnología de iluminación eficiente.
Product for efficient lighting technology.

Video Tutorial. Producto con recurso audiovisual de instalación o uso.
Video tutorial. Product with audiovisual resource for installation or use.

YCR

CABEZAL JUNTA de 2 o 3 mm.
Regulación de altura de forma manual mediante Aro Giratorio.
2 or 3 mm HEAD JOINT. Manual height adjustment by means of a rotating ring.

CABEZAL JUNTA de 4 mm.
Regulación de altura de forma manual o mecánica mediante Llave Reguladora.
4 mm JOINT HEAD. Height adjustment manually or mechanically by means of regulating key.

Principales cualidades de la nueva serie MAXILOT®
Main qualities of the new MAXILOT® series

Realizados con materiales resistentes y reciclables, este sistema permite una carga de hasta 2.000 kg. Evitando la colocación de otros materiales para la instalación del mismo se elimina un peso y un gasto superfluo.

Made with resistant and recyclable materials, this system allows a load of up to 2,000 kg. Avoiding the placement of other materials for its installation eliminates superfluous weight and expense.

La naturaleza de los materiales de fabricación de los plots permite eliminar tanto las vibraciones del tránsito sobre el pavimento, como crear una capa de aislamiento acústico y térmico.

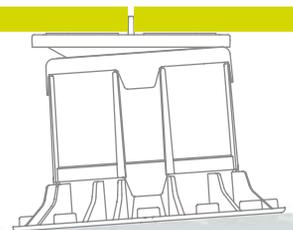

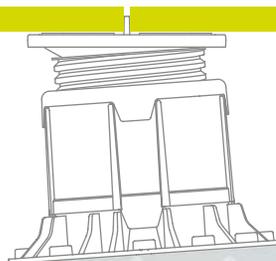

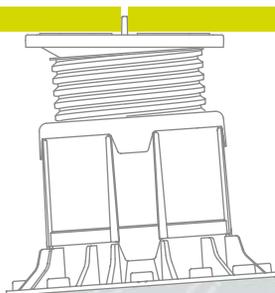

The nature of the materials used to manufacture the plots makes it possible to eliminate both the vibrations of traffic on the pavement and to create a layer of acoustic and thermal insulation.

Las instalaciones con plots permiten un acceso rápido y sin obras a instalaciones o reparaciones de conductos debajo del mismo. Las instalaciones con plots tienen además las ventajas de un peso ligero y una larga durabilidad.

Installations with plots allow quick and easy access to installations or repairs of ducts underneath without the need for building work. Plot installations also have the advantages of low weight and long service life.

Es una base de polipropileno modular, que **permite instalar suelos técnicos de forma rápida, segura y versátil**, sobre la que se puede colocar directamente **cerámica, piedra, mármol, césped sintético, etc.** Ideal para crear superficies continuas, resistentes y con total libertad de diseño. Una vez ejecutada la instalación con el sistema Maxigrid, se obtiene una estructura estable y permanente que no requiere modificaciones, independientemente de los cambios que se deseen realizar en el acabado (cerámica, madera, césped, etc.).

Is a modular polypropylene base that allows for the quick, safe, and versatile installation of raised flooring systems, onto which ceramic tiles, stone, marble, synthetic grass, and other finishes can be directly laid. It is ideal for creating continuous, durable surfaces with complete design freedom. Once the Maxigrid system installation is completed, it provides a stable and permanent structure that requires no modifications, regardless of the changes desired in the surface finish (ceramic, wood, grass, etc.).

Su instalación es similar a la del suelo técnico cerámico, con la diferencia de que **MAXIGRID® se instala mediante sistema machihembrado** y sobre el **MAXIPILOT®** formando una plataforma robusta y pensada para adaptarse a los desafíos de cualquier entorno moderno. Permite una **colocación rápida y precisa**, sin necesidad de herramientas complejas ni obras invasivas.

Te permite cambiar tantas veces necesites entre diferentes acabados, cerámica, madera... Para la instalación de la cerámica, cuenta con un accesorio **MAXIGRID® DISTANCIADOR** el cual sirve de apoyo entre el **MAXIGRID®** y la **cerámica absorbiendo cualquier ruido y movimiento innecesario, además aporta la separación entre azulejos (2 y 4 mm).**

Una solución técnica, estética y funcional para espacios que exigen más.

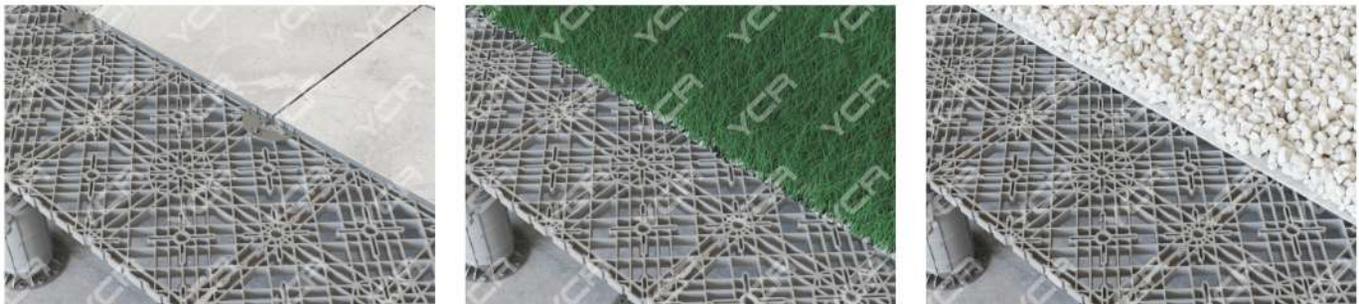

Para la instalación de la tapa se aconseja el uso de **MAXIPILOT®** junta de 2–3 mm puesto que permite su correcta nivelación bajo la propia tapa.

Its installation is similar to that of ceramic raised flooring, with the difference that MAXIGRID® is installed using a tongue-and-groove system and placed on top of MAXIPILOT®, forming a robust platform designed to adapt to the challenges of any modern environment. It allows for fast and precise placement without the need for complex tools or invasive construction work.

You can switch as many times as needed between different finishes—ceramic, wood, etc. For ceramic installation, it includes the MAXIGRID® DISTANCIADOR, an accessory that serves as a support between MAXIGRID® and the ceramic surface, absorbing noise and unwanted movement. It also provides the necessary tile spacing (2 and 4 mm).

A technical, aesthetic, and functional solution for spaces that demand more.

For installing the cover, the use of **MAXIPILOT®** 2 or 3 mm gap is recommended, as it allows proper leveling beneath the cover.

TIPO Type	Medidas cm Dimensions cm	Temp. Ambiente Ambient Temperature	Peso (Kg/ud.) (Kg/pc.)	Peso Max. / Max. Weight		
				50 x 50 cm Centro Center	140 x 140 cm Centro Center	100 x 300 cm Intersección Intersection
REJILLA GRID	50 x 50	29 C°	2,13	267	407	314
TAPA COVER		31 C°	2,70	335	426	347

SE RECOMIENDA:

- Verificar los requisitos mecánicos específicos según su aplicación.
- Realizar ensayos adicionales si se prevé uso bajo cargas dinámicas o repetitivas.

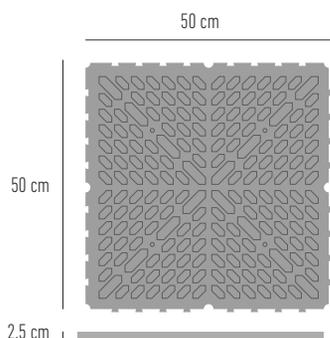

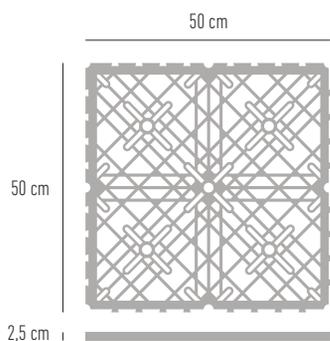

It is recommended to:

- *Verify the specific mechanical requirements according to the intended application.*
- *Perform additional tests if used under dynamic or repetitive loads is expected.*

YCR

The image displays five different models of expansion joints from the YCR brand, arranged diagonally from top-left to bottom-right. From top to bottom, they are: a silver profile with circular holes; a silver profile with triangular cutouts; a silver profile with circular holes and a central longitudinal groove; a silver profile with circular holes and a central longitudinal groove; and a black profile with circular holes. Each profile has a distinct cross-section designed for expansion and contraction in construction applications.

YCR TAB-YC®

**PANELES AISLANTES
TÉRMICOS E IMPERMEABLES**
THERMAL AND WATERPROOF
INSULATION PANELS

¿Qué es TAB-YC® y para que sirve?

TAB-YC® ofrece una solución efectiva y económica para mejorar la durabilidad, aislamiento y resistencia al agua en baños, siendo fáciles de instalar y mantener. Son ideales para la colocación de azulejos en paredes y pavimentos con capas finas o acabados de yeso. Instalación sencilla y versátil.

What is TAB-YC® and what is it for?

TAB-YC® offers an effective and economical solution to improve durability, insulation and water resistance in bathrooms, being easy to install and maintain. They are ideal for laying tiles on walls and floors with thin layers or plaster finishes. Simple and versatile installation.

Dónde se utilizan nuestros paneles:

- Tableros de base para pavimentos
- Revestimiento de paredes y soporte para azulejos
- Cubre tuberías
- Cajas para inodoros
- Elementos de baño
- Aislantes para calefacción de pavimento

Accesorios compatibles

- TAB-YC® Curve
- TAB-YC® Escuadra
- TAB-YC® U
- Lámina impermeable WaterDry®
- Banda impermeable WaterDry®
- Esquinas impermeables interiores/exteriores WaterDry®
- Cubre tuberías/válvulas Elastub®
- Pegamento de recubrimiento de PU
- Arandelas/tornillos de acero
- Antepecho de bañera
- Hornacinas de ducha
- Banco de ducha

Compatible accessories

- TAB-YC® Curve
- TAB-YC® Angle
- TAB-YC® U
- WaterDry® waterproof sheet
- WaterDry® waterproof strip
- WaterDry® Inside/Outside Waterproof Corners
- Elastub® pipe/valve covers
- PU coating adhesive
- Steel washers/screws
- Bathtub parapet
- Shower niches
- Shower bench

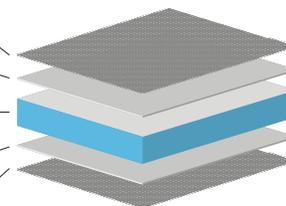

Where our panels are used:

- Subfloor boards
- Wall cladding and tile backing
- Pipe covers
- Toilet boxes
- Bathroom elements
- Insulation for underfloor heating

Guía de Fijación para Placas de Soporte para Azulejos

- **TAB-YC**® es una solución económica y completa para la impermeabilización y aislamiento en una sola operación.
- Puede reemplazar paneles de yeso y madera contrachapada y son superficies ideales para la colocación de azulejos en paredes y pavimentos. Fácil de fijar a cualquier estructura, como ladrillo, hormigón, madera o metal.
- Es fácil de fijar, ligera y fácil de cortar con una sierra o cuchillo.
- **TAB-YC**® son completamente resistentes al agua una vez selladas las juntas.
- Pueden mejorar la eficiencia de calefacción por suelo radiante hasta en un 50%. Cuanto más gruesa sea la placa, mayores serán las propiedades térmicas.
- Puede soportar un peso de hasta 62 kg/m².

Fixing Guide for Tile Backerboards

- **TAB-YC**® is an economical and complete solution for waterproofing and insulation in a single operation.
- It can replace plasterboard and plywood and are ideal surfaces for wall and floor tiling. Easy to fix to any structure, such as brick, concrete, wood or metal.
- It is easy to fix, lightweight and easy to cut with a saw or knife.
- **TAB-YC**® are completely water resistant once the joints are sealed.
- They can improve the efficiency of under-floor heating by up to 50%. The thicker the board, the greater the thermal properties.
- It can support a weight of up to 62 kg/m².

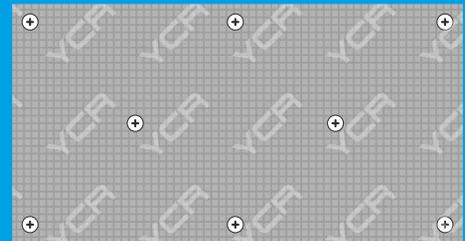

TAB-YC®

Colocación de Tornillos y Fijaciones

Aplicación en Pared - Superficie Lisa

1. Usar un punzón para marcar la posición de las fijaciones (usar 8 fijaciones por panel de 1200 mm x 600 mm). Ver Fig.1.
2. Colocar una gota de adhesivo flexible a base de cemento para baldosas en cada orificio y poner el panel en la pared asegurándose de que esté recto y nivelado. Asegurarlo en su posición.
3. Una vez que todos los paneles estén en su lugar y el adhesivo esté seco, perforar un orificio a través del panel en las marcas hechas con el punzón hasta el sustrato detrás.
4. Insertar los tornillos y arandelas en los orificios y apretar hasta que la arandela se hunda ligeramente en la superficie del panel. No apretar demasiado para evitar que se deforme el panel, lo que dificultaría la colocación de azulejos.
5. Una vez que los paneles estén bien fijados, aplicar cinta de fibra de vidrio a todas las juntas antes de colocar los azulejos. Si las juntas requieren impermeabilización, usar una cinta de juntas impermeable flexible.

Screw and Fastener Placement

Wall Application - Smooth Surface

1. Use a punch to mark the position of the fixings (use 8 fixings per 1200mm x 600mm panel). See Fig.1.
2. Place a drop of flexible cement based tile adhesive in each hole and place the panel on the wall ensuring it is straight and level. Secure in position.
3. Once all panels are in place and the adhesive is dry, drill a hole through the panel at the marks made with the punch to the substrate behind.
4. Insert the screws and washers into the holes and tighten until the washer sinks slightly into the surface of the panel. Do not over-tighten to avoid warping the panel, which would make tile installation difficult.
5. Once the panels are securely fastened, apply fibreglass tape to all joints before tiling. If joints require waterproofing, use a flexible waterproof joint tape.

CONDICIONES GENERALES DE COMPRA

GENERAL TERMS AND CONDITIONS OF PURCHASE

CONDICIONES GENERALES.

- La aceptación por parte del cliente del albarán y la correspondiente factura comercial sin objeción formulada por escrito dentro de los siete días a partir de la recepción de la mercancía conlleva la conformidad sin reserva alguna de las siguientes condiciones de venta.
- La forma de pago de la mercancía será al contado, salvo que ambas partes acuerden una forma alternativa.
- Por acuerdo expreso nuestra responsabilidad se limita al cambio de las mercancías consideradas como defectuosas o equivocación en el etiquetado, con exclusión de cualquier otro tipo de indemnización.
- Todos los impuestos exigibles serán a cargo del cliente.
- Los precios de la presente tarifa no incluyen I.V.A., portes o cualquier otro tipo de impuesto o tasa.
- El valor mínimo para un pedido en la península y baleares a portes pagados es de 300,00 €. En el caso de Canarias, el pedido mínimo es de 1.000,00 €.
- Para pedidos inferiores a las cantidades señaladas, se cargará una contribución en concepto de:
 - 20,00 € para envíos en la península
 - 40,00 € para envíos a Islas Baleares
 - 95,00 € para envíos a las Islas Canarias
- Solo se admitirán pedidos por mail con nuestra referencia o descripción. Sin excepción.
- En los casos en los que se precise de un embalaje especial para enviar piezas sueltas, éste tendrá un coste de 3,40 €/embalaje hasta 2,60 m y 6,80 €/embalaje hasta 3,00 m de largo.
- YCR Complementos, S.L. **NO** se hará responsable de las mercancías dañadas por culpa del transporte, excepto que se indique el daño o incidencia en el albarán que se **lleva el transportista** en el mismo momento de la descarga. En ningún caso sirven anotaciones como "pendiente de revisar", "el transportista lo ha dejado y no lo hemos visto", "que el transportista ha dicho que se encarga de anotar la incidencia" o similares.
- **NO** están admitidas las **devoluciones** de mercancías en las que YCR Complementos, S.L. no ha cometido ninguna incidencia.
- Todos los artículos indicados en este catálogo están sujetos a la disponibilidad de YCR Complementos, S.L., que se reserva el derecho de efectuar modificaciones o de interrumpir la distribución en cualquier momento sin previo aviso.
- YCR se reserva el derecho a modificar el diseño o dibujo siempre y cuando no afecte a la aplicación de dicho producto.
- Todas las imágenes mostradas son sólo para fines ilustrativos y pueden no ser la representación exacta del producto.
- Las imágenes publicadas están protegidas y son meramente ilustrativas; los colores pueden diferir de los colores reales.
- Los precios amparados en el presente catálogo pueden ser modificados sin modificación de preaviso, en función de la variación de los índices base, subida de la materia prima y/o costos de producción.
- Los perfiles marcados con el símbolo  deben colocarse en interior y evitando la luz directa del sol.
- Toda consecuencia a raíz de una mala colocación y/o mantenimiento, YCR Complementos, S.L. no se hará responsable de cualquier desperfecto
- En los casos en los que YCR Complementos, S.L. proporcione al cliente el rendimiento de algún producto, tales como el Maxiplot®, C-Level®, etc., no se hace responsable de las cantidades/componentes indicados, siendo siempre responsabilidad última del cliente los artículos y cantidades a pedir. No se admiten cambios ni devoluciones

GENERAL PURCHASE CONDITIONS

- The acceptance by the client of the delivery notes and the corresponding commercial invoice without objection formulated in writing within seven days from the receipt of the merchandise, entails the unreserved agreement of the following conditions of sale.
- The method of payment for the orders will be as cash payment, unless both parties agree on an alternative form.
- By express agreement our responsibility is limited to the change of the merchandise considered as defective or mistake in the labeling, excluding any other type of compensation.
- All required taxes will be paid by the client.
- The prices of this rate do not include I.V.A., shipping or any other type of tax or fee.
- The minimum amount for an order in the peninsula and the Balearic Islands with carriage-paid deliveries is €300.00. In the case of the Canary Islands, the minimum order amount is €1,000.00.
- For orders less than the amounts indicated, a contribution will be charged as follows:
 - €20.00 for shipments in the peninsula
 - €40.00 for shipments to the Balearic Islands
 - €95.00 for shipments to the Canary Islands
- Only orders sent by email with our reference or description will be accepted. No exceptions.
- In cases where special packaging is required, i.e. to send few pieces, this will have an extra cost of € 3.40/packaging up to 2.60 m long and € 6.80/packaging up to 3.00 m long.
- YCR Complementos, S.L. will **NOT** be responsible for goods damaged due to transport, unless the damage or incident is indicated on the delivery note that the delivery service or shipper signs and takes at the time of unloading. In no case are notes such as "pending review", "the carrier has left it and we have not seen it", "the carrier has said that he is in charge of recording the incident" or similar.
- In no case will notes be accepted such as "pending review", "the carrier has left it and we have not seen the material", "the carrier has said that he will be in charge of recording the incident" or similar.
- **Returns** of material in cases where YCR Complementos, S.L. has not made any mistake are **not allowed**.
- All items listed in this catalog are subject to the availability of YCR Complementos, S.L., which reserves the right to make changes or discontinue distribution at any time without prior notice.
- YCR Complementos, S.L. reserves the right to modify the design or drawing if it does not affect the application of said product.
- All images shown are protected and only for illustrative purposes thereby may not be the exact representation of the product. The colors also may differ from the real colors.
- The prices covered in this catalog can be modified without prior notice modification, depending on the variation of the base indices, increase in raw material and/or production costs.
- The profiles marked with the symbol  must be placed indoors and avoiding direct sunlight.
- YCR Complementos, S.L. will not be held responsible for any damage or consequence of poor placement and/or maintenance.
- In cases in which YCR Complementos, S.L. provides the client with the output of a product, such as Maxiplot®, C-Level®, etc., is not responsible for the quantities/components indicated, and the items and quantities to be ordered are always the client's ultimate responsibility. No changes or refunds are allowed.
